ABOUT US

Who we are

ALYOSR has more than 15 years of experience — the company was established in 2009 in Cairo.

We specialize in providing all services and construction works, starting from infrastructure works through to finishing, design, project management and maintenance.

We are proud of our family, which includes the best cadres in all engineering fields, able to implement all projects with high efficiency.

OUR APPROACH

Why choose us

We understand that our success depends on the success of our customers.

That's why we work closely with each of our clients to develop customized solutions that meet their unique requirements. We are dedicated to building long-term relationships with our clients based on trust, respect, and mutual benefit.

TRUST RESPECT MUTUAL BENEFIT CUSTOMIZED SOLUTIONS

DIRECTION

Vision & Mission

Our Vision

To be the leading engineering solutions provider in Egypt, delivering world-class quality projects that exceed client expectations.

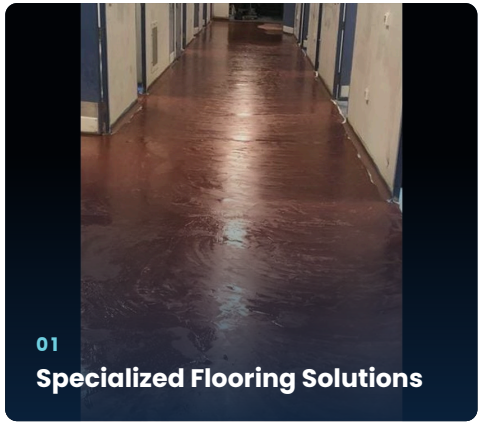

Our Mission

To deliver integrated contracting, finishing, MEP and maintenance solutions that exceed customer expectations driven by quality, safety and environmental responsibility.

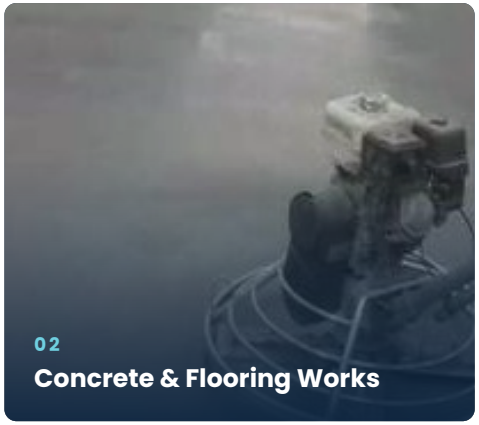

WHAT WE DO

Our services

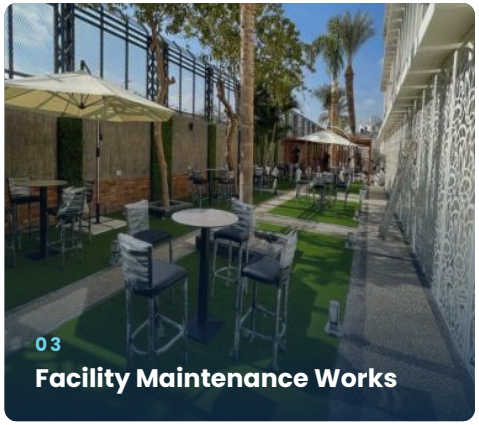

A complete scope of construction, finishing and maintenance services for factories, facilities, offices and residential projects.

01

SERVICE 01

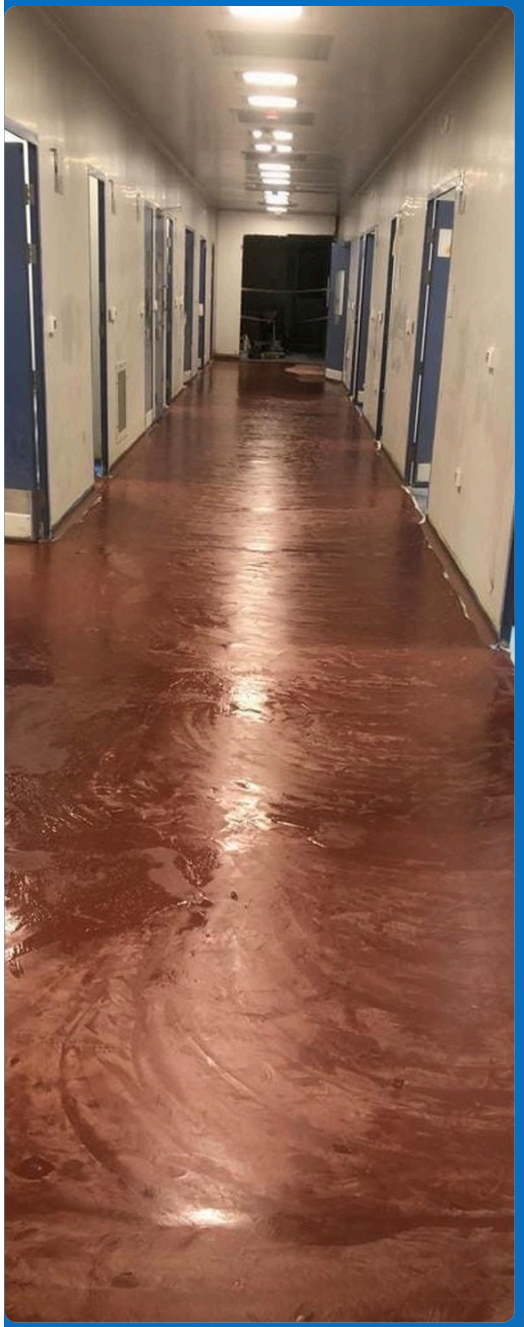

Specialised flooring solutions

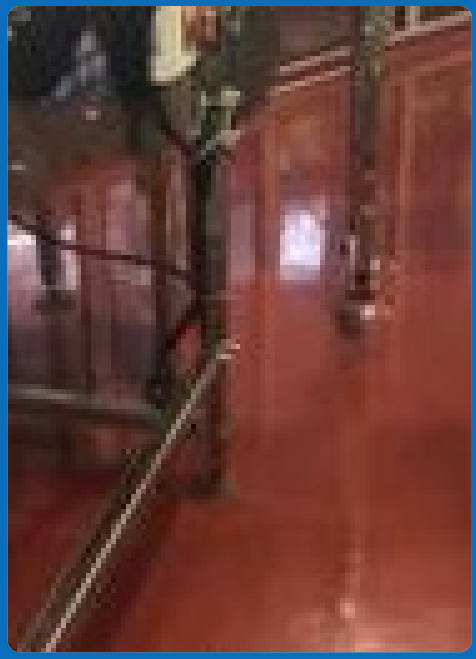

Integrated solutions that meet the needs of our manufacturing customers by providing an ideal working environment for every task the manufacturing process requires — through all kinds of concrete and flooring works, taking into account the interior design of the facility and its aesthetic shape as well.

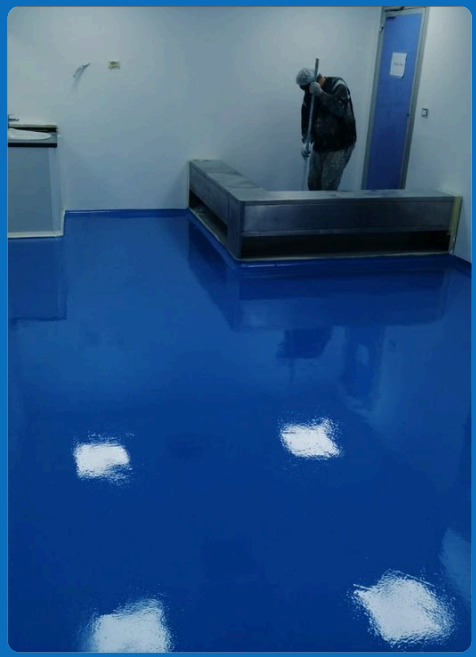

POWER-TROWELLED CONCRETE FLOORS

MORTAR WORKS

EPOXY

SERVICE 02

Concrete & flooring works

Self-level epoxy, epoxy mortar, vinyl flooring and concrete slabs for production areas, warehouses, hospitals and streets.

SERVICE 03

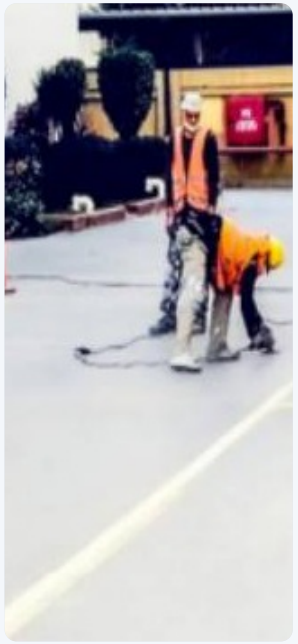

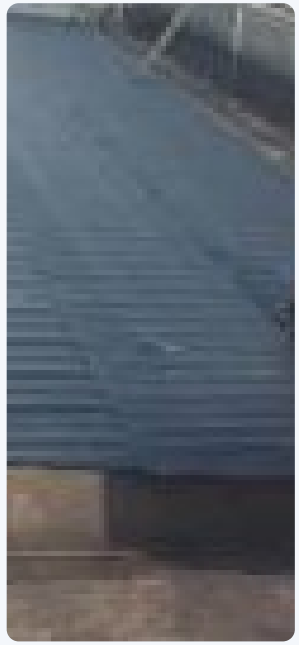

Facility maintenance works

Including streets, break areas & related facilities

Seeking the best solution for each space or activity, we are ready to meet its needs with the highest efficiency and the highest safety standards — ensuring optimum quality and minimum downtime for areas under renovation or maintenance.

SERVICE 04

Maintenance & restoration of external façades

We don't only carry out maintenance or restoration of the façade of your factory or facility — we also provide all the materials required for the maintenance or restoration process, thanks to our strong network of suppliers and, of course, our family of engineers and technicians.

SERVICE 05

Electro-mechanical

Full MEP scope under one roof — supply, installation and testing of electrical works, HVAC & ducting, plumbing & drainage and fire-fighting systems — in line with occupational safety and industrial security standards.

- FIRE SYSTEMS
- ELECTRICAL & PLUMBING
- HVAC DUCTING

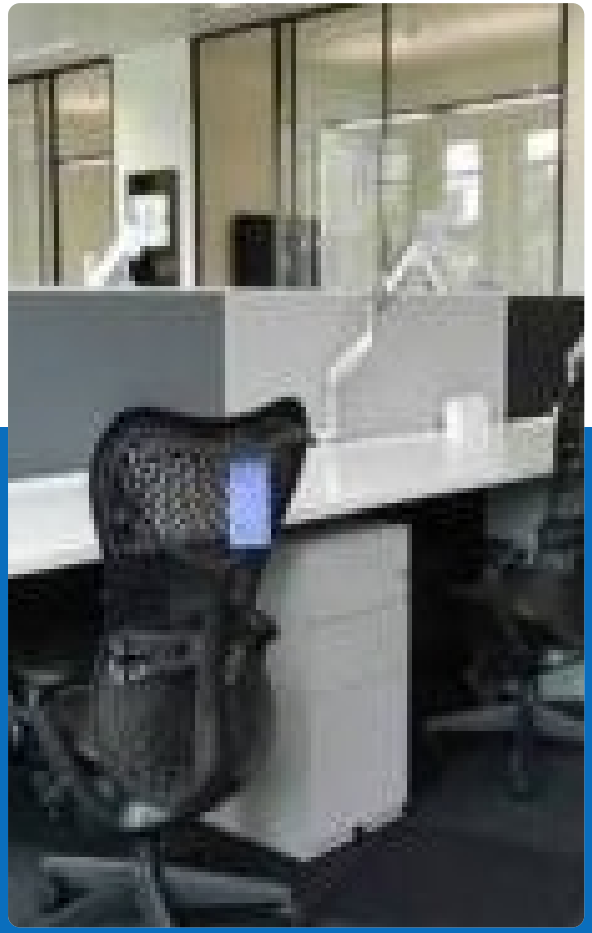

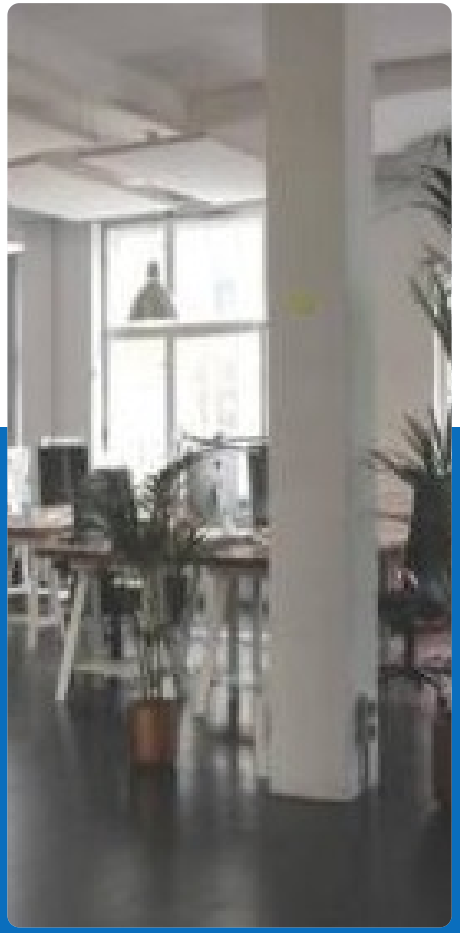

SERVICE 06

Work space areas

We help you provide a modern and practical work environment commensurate with the nature of the activity in each of the departments' sites.

SERVICE 07

Floor & wall treatment works

Treating floors and walls in buildings involves many different activities.

01 **Floors**
Installation of ceramic, porcelain, marble, granite and other materials.

02 **Walls**
Gypsum board, sandwich panel and masonry walls — depending on the nature of the place and the way it operates.

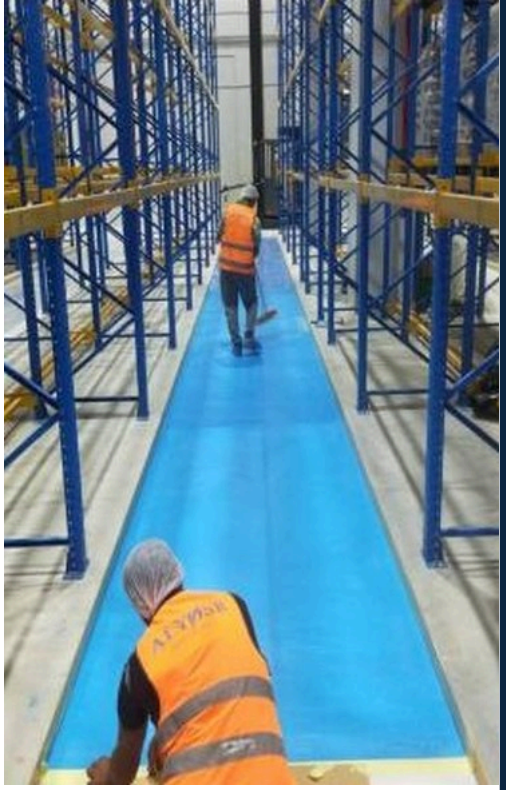

03 **Insulation & finishing**
Installing walls, ceilings and floors with thermal and sound insulation, plus interior and exterior wall finishing.

CAPABILITIES

Floors & walls of all kinds

01 Self-level epoxy, epoxy paints and epoxy mortar for production areas and warehouses with a heavy work nature

02 Concrete slabs for streets and warehouses

03 Vinyl flooring for pharmaceutical production areas, hospitals and packaging areas

04 Epoxy mortar floors for storage areas

05 HDF flooring for offices, administrative areas and entrances to companies and factories

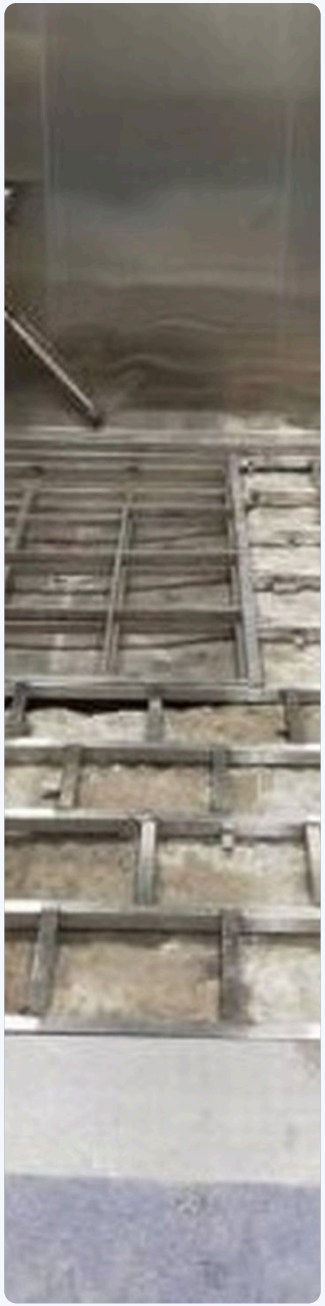

06 Wall paints, including fire-resistant and anti-bacterial paints

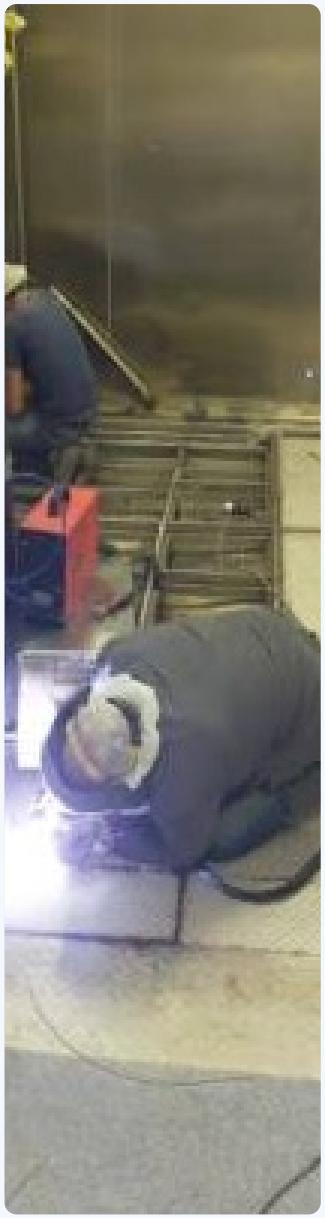

SERVICE 08

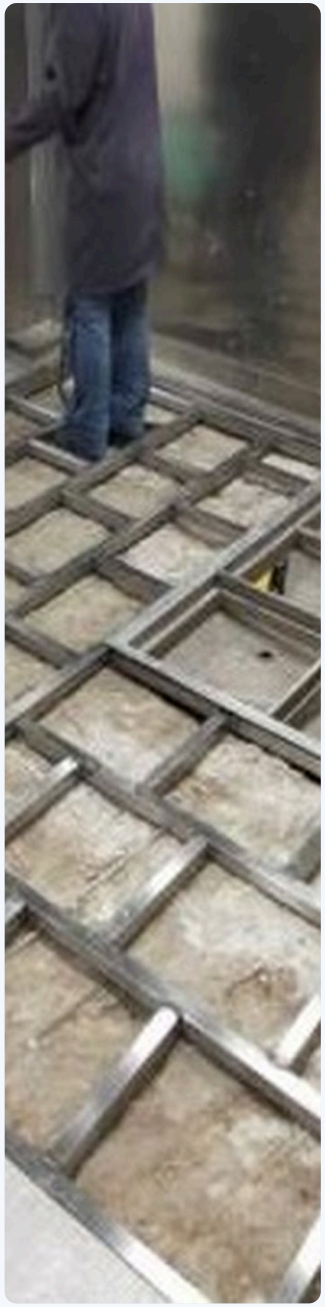

Stainless steel works

We manufacture stainless steel tanks and production tools, and lay stainless steel pipelines for production areas.

Our stainless scope also covers platforms, walkways, handrails, doors, collision protectors, barriers, handles and cup holders — built to suit the hygiene requirements of pharmaceutical and food production areas.

STEEL STRUCTURES

Steel structure works

We design, fabricate and erect steel structures for factories, warehouses, workshops and rooftop extensions — from shop drawings to final installation.

Our scope includes steel frames, columns and beams, roof trusses and purlins, mezzanine floors, platforms, staircases and walkways, as well as strengthening existing concrete structures with steel.

All works are executed under consultant supervision and in line with occupational safety standards.

SERVICE 09

Fit-out scope

With years of experience in the industry, our team of skilled professionals is dedicated to delivering high-quality fit-outs that exceed our clients' expectations. We understand that every project is unique, and we take the time to listen to your specific requirements and goals. From concept development to final installation, we work closely with you throughout the entire process to ensure a seamless and successful project.

Our commitment to excellence extends beyond aesthetics. We also prioritize functionality and efficiency, creating spaces that not only look great but also enhance productivity and maximize the use of available space — with attention to detail and meticulous planning in every aspect of your fit-out.

FIT-OUT SCOPE

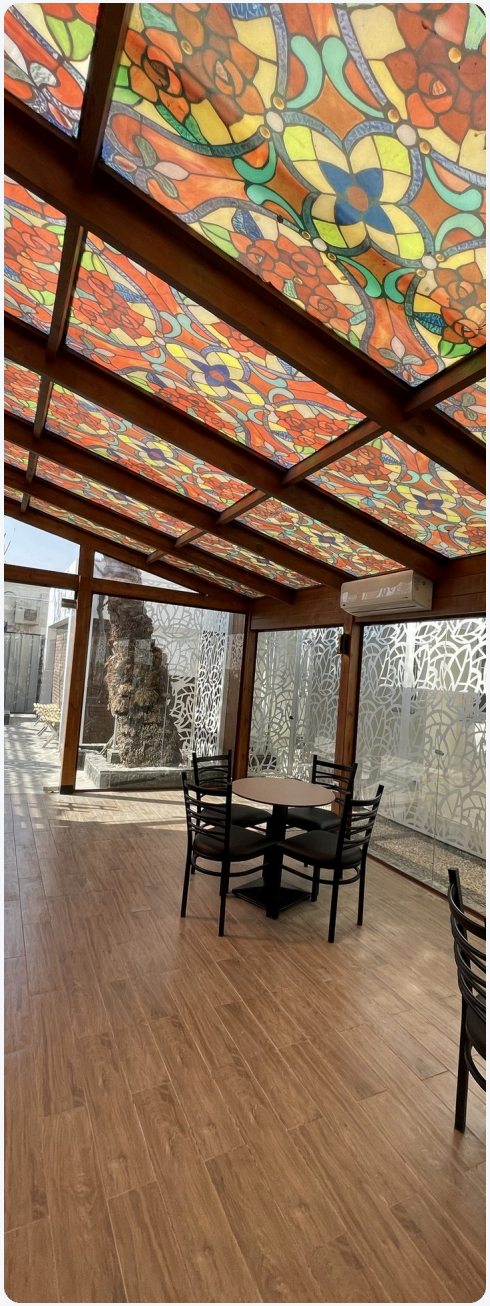

A wide range of offerings

01 Marble works
Stairs and floors in all shapes and types, wall cladding and marble seating.

02 Electrical finishing
Installation, laying pipes and cables, connecting to power outlets, and decorative & basic lighting.

03 Water supply & drainage
Laying foundations, installing pipes and final finishes for kitchens and bathrooms.

04 Woodworks
Wooden decorations, cladding and furniture.

FIT-OUT SCOPE

Completed interiors

Offices, meeting rooms, reception areas and hospitality spaces — delivered from shell to finished space.

SERVICE 10

Maintenance & reinforcement works

Maintenance and reinforcement operations — whether for buildings and facilities in full or for their main parts — begin by evaluating the current situation, drawing up a complete plan and setting an integrated time plan to complete the operations, then starting implementation.

Throughout, we make sure not to disrupt the work of the facility or compromise the safety standards of everyone present inside it — at any cost.

Selected projects

We present to you some of our previous works since the establishment of our company in 2009.

- **Ezz Steel Factory, Sokhna** — establishment project, in collaboration with the Italian company Danieli
- **French Power Station, Ain Sokhna** — establishment project
- **Viatris Pharmaceutical Factory** (formerly Pfizer)
- **Sanofi Aventis Pharmaceutical Factory**
- **Novartis Pharmaceutical Factory**
- **GSK** (GlaxoSmithKline)
- **Grifols** — company & factory
- **Servier Pharmaceutical Factory**
- **El Nile Pharmaceutical Factory**
- **Amoun Pharmaceutical Factory**
- **Gennvax** — vaccines & serums
- **P&G** (Procter & Gamble)
- **Amgen Pharmaceutical Company**
- **Gypto Pharma Company**
- **Orchidia Pharmaceutical Factory**
- **Chemipharm Pharmaceutical Factory**
- **Sumitomo Wiring Factory**
- **Atlantic Coca-Cola Factory**
- **Bisco Misr Factory**
- **GEMS Schools**
- **Al-Zeitoun Specialized Hospital**
- **Cleopatra Specialized Hospital**
- **Wadi Degla Sports Club**
- **Aero Sport Club** at the airport
- **Mars** — Saudi Arabia
